Please fill out and mail the Market Survey Card at the back of the booklet.

**We are pleased that you have chosen a Browning BAR Rifle.** In its manufacture, we have endeavored to incorporate the very finest in materials and craftsmanship, and with just reasonable care, this gun should provide you with many years of pleasure and dependable service. Please feel free to write us immediately if you have any observations regarding its performance and operation.

Also please take a moment to complete and mail in the brief attached marketing survey card found on our back cover. It helps us considerably in our constant effort to provide you with better service.

Thank you.

Route #1, Morgan, Utah 84050

## ***You are responsible for firearm safety.***

Please let us remind you that, as a gun owner, you accept a set of responsibilities of the most demanding nature. Firearms are, and should always be considered as, dangerous products and should be handled accordingly.

**PLEASE READ AND UNDERSTAND THE FOLLOWING PROPER HANDLING AND INSTRUCTION PROCEDURES OUTLINED BELOW IN THIS BOOKLET BEFORE USING YOUR NEW FIREARM.**

- 1 ALWAYS KEEP THE MUZZLE OF YOUR FIREARM POINTED IN A SAFE DIRECTION** even though you are certain the rifle is unloaded. Never point any firearm at anything you do not intend to shoot. Be extremely alert and aware of all persons and property within the range of your ammunition.
- 2 DO NOT RELY TOTALLY ON YOUR FIREARM'S MECHANICAL "SAFETY" DEVICES. AS AN ADDITIONAL SAFETY MEASURE ALWAYS ASSUME THAT A GUN CAN BE FIRED WITH A SAFETY ON.** The word "safety" describes a gun's

blocking or disengaging mechanism for the trigger, sear, hammer and/or firing pin. Although mechanical devices place your gun in a SAFER status, no guarantee can be made that the gun will not fire even if the "safety" is in the "on safe" position. Safe gun handling does not stop with your gun's mechanical "safety" devices. It starts there. Always treat your firearm with the respect due a loaded, ready-to-fire gun.

- 3 WHENEVER YOU HANDLE A FIREARM, OR HAND IT TO SOMEONE, ALWAYS OPEN THE ACTION IMMEDIATELY,** and visually check the chamber, receiver and magazine to be certain they do not contain any ammunition.
- 4 DO NOT TRANSPORT YOUR FIREARM LOADED, WHETHER IN A SCABBARD, GUN CASE, OR OTHER CONTAINER.**

- 5 HUNTING FROM ELEVATED SURFACES SUCH AS TREE STANDS IS DANGEROUS** and may increase the risk of handling a firearm. The following rules should always be observed by you and those you hunt with: Always make certain that the stand being used is safe and stable. Always make certain that your firearm is unloaded when it is being taken

up and down from the stand. Always make certain that your firearm is not dropped from the stand, or dropped while it is being taken up or down from the stand. Remember, a loaded firearm may discharge when dropped, even with the safety on.

- 6 BEWARE OF BARREL OBSTRUCTIONS** for the safety of both your gun and yourself. Mud, snow, and an infinite variety of other objects may inadvertently lodge in a barrel bore. It takes only one small obstruction to cause dangerously increased pressures that may damage your gun and cause injury to yourself and to others.  
**BEFORE CHECKING FOR A BARREL OBSTRUCTION, BE CERTAIN NO LIVE ROUND IS IN THE CHAMBER AND THAT THE MAGAZINE AND FEED MECHANISMS ARE COMPLETELY EMPTY. PUT THE SAFETY IN THE "ON SAFE" POSITION** (See page 19 for instructions on unloading). After assuring yourself that the firearm is completely empty, again, open the action and look through the barrel to be sure it is clear of any obstruction. If an obstruction is seen, no matter how small it may be, clean the bore with a cleaning rod and patch as described in "Cleaning Suggestions" on page 31.

- 7 ALWAYS UNLOAD YOUR GUN WHEN NOT IN USE.** Your responsibilities do not end when your firearm is unattended. Store your gun and ammunition separately and well beyond the reach of children. Take all safeguards to insure your gun does not become available to untrained, inexperienced, or unwelcomed hands.

- 8 USE THE PROPER AMMUNITION.** The barrel and action of this rifle have been made with substantial safety margins over the pressures developed by established American commercial loads. Nevertheless, Browning assumes no liability for accidents which occur through the use of cartridges of non-standard dimensions or which develop pressures in excess of commercially available ammunition which has been loaded in accordance with standards established by SAAMI (Sporting Arms and Ammunition Manufacturer's Institute). **BE ALERT TO THE SIGNS OF AMMUNITION MALFUNCTION.** If you detect an off sound or light recoil when a cartridge is fired, **DO NOT LOAD ANOTHER CARTRIDGE INTO THE CHAMBER.** Open the action and remove all cartridges from the magazine, chamber and action areas. Glance down the barrel to make sure that a bullet or other
